

## 90% of MGM Team Members Vaccinated

Answering the Macau SAR government's call for building a solid barrier against the COVID-19 virus with vaccination, MGM has been constantly encouraging its team members to get vaccinated for the past months. Working towards the common goal of achieving a herd immunity, MGM has organized several "Outreach Vaccination Program" for its team members, alongside explanatory seminars on the vaccines and a diverse range of promotional campaigns took place both inside and outside the Company. All of these events have received positive responses from its team members, which has brought MGM's current staff vaccination rate to 90%. **Pansy Ho, Co-chairperson & Executive Director of MGM China Holdings Limited**, thanks each of the vaccinated team members for protecting their loved ones while fulfilling their civil responsibility to safeguard the city, keeping Macau a safe living place and travel destination.

Throughout the year, MGM has rolled out a series of facilitation measures and campaigns on promoting COVID-19 vaccines, with the aim of enabling all team members to adopt a thorough understanding of the vaccines, so to encourage them to get vaccinated. In May, MGM became the first integrated resort operators to invite medical staffs of the Health Bureau to host the on-site "Outreach Vaccination Program" and explanatory seminars. The Company has hosted a total of four outreach programs for team members and their family members to receive their shots at a comfortable and convenient environment. Enthusiastically participated, the programs administered a total of over 8,000 shots of vaccines. On the other hand, the Company's management team members also took the lead to get vaccinated and encouraged more team members to receive their shots.
