

## **MGM Promotes Online Photo Exhibition on National Security to Team Members**

*An Initiative to Strengthen National Education and Raise Awareness of National Security*

MGM has been committed to promoting national education to team members through various events and channels, with the aim of helping them to fully understand our Country's developments and achievements for inculcating a sense of national pride and identity. In support of this year's National Security Awareness Education Day, MGM has recommended the "National Security Education Exhibition" -- 360° Virtual Reality Exhibition co-organized by Macau SAR and China Liaison Office to team members via its eLearning platform to deepen their understanding of national security.

Embracing the belief in "everyone has a responsibility for national security", the exhibition innovatively imparts the meaning and significance of national security to the public via online platforms. Participants will be able to understand overall national security, global security as well as Macau's implementation of measures for maintaining national security.

While talent development is among the core values of MGM, eLearning has become increasingly apparent for the Company this year. In addition to promoting national education, MGM eAcademy offers more than 6,500 courses to team members. In February, MGM partnered with a local young entrepreneur to introduce an instructor-led virtual classroom that allows team members to learn and interact with others. The Company also helps to promote eLearning in the community. After the suspension of classes as part of the city's anti-pandemic measures, some of MGM's management team members took on the role of guest lecturer of eLearning courses provided by the city's tertiary institutions.
